A note from my cluttered desk As I write this there are signs of Spring all around, flowers blooming, trees budding and the grass is starting to grow (that part does not excite me, I hate cutting grass). With Spring comes signs of new life, things that have dormant for sometime come alive with brilliant colors and growth. As we see this taking place in nature let it serve as a reminder that we should look alive as well. We have to many "dormant" Christians, what we need are some believers that growing and serving God. So, when people look at us they see a life full of brilliant colors, a life that honors God and gives others a reason to want to serve Him. Maybe it is time to do a little spring cleaning in your life, dust off the cob webs and clean out the corners so that your life will truly reflect the beauty of Christ.
