**IMPACT**  
Feb. 26  
6-7 pm  
in the RFC

Lloyd

**A note from my cluttered desk.....** February is here and that means Valentine's Day is right around the corner. Many people celebrate Valentine's many different ways; roses, candy, chocolates, cards, heart-shaped jewelry, the list is endless. I am convinced that Valentine's Day was invented by Hallmark in order to sell cards! While it is the day we go "over the top" on expressing our love to our sweetheart, there was also a day when God did the same. While we express our love through the shape of a heart, God expressed His through the shape of a cross. Romans 5:8 says "But God demonstrates His own love for us in this: while we were still sinners Christ died for us." It is my prayer that you embrace God's expression of love and let that love be poured out through you to others daily. Valentine's Day comes once a year – show God's love everyday of the year! I love serving as your Student Pastor and I look forward to seeing you at RBC each week.
